| <b>6. Title of proposed action:</b> Tentative Approval of Chemical Lime Company of Arizona's, Mining and Reclamation Plan permit application for their <b>existing</b> Grantsville Limestone Quarry and lime processing plant (DOGM file #: M/045/028).  |  |
| <b>7. Description:</b><br><br><b>During Operations</b><br><br>This is an existing open-pit limestone quarrying operation with attendant lime processing facilities. The operator drills and blasts dolomitic-limestone material, hauling run-of-mine ore to a crusher. Sized limestone is temporarily stockpiled prior to further processing in the lime plant. Waste fines are being stockpiled for final reclamation of the quarried areas. Concurrent reclamation will take place on areas no longer needed for operations.<br><br><b>Following Operations</b><br><br>Non-hazardous trash and debris will be disposed of by backfilling in the mined out pit(s). Plant facilities and equipment will be decommissioned, removed and/or salvaged. Building foundations will be broken up and hauled away to an approved landfill. Private powerlines, poles, natural gas pipelines, waterlines and telephone lines will be removed. Regrading will be done to blend in with surrounding landscape and revegetated. |  |
| <b>8. Land affected (site location map required) (indicate county)</b><br><br>SE 1/4 Section 25, and the NE 1/4 Section 36, Township 1 South, Range 7 West, SLBM, Tooele County, Utah.   |  |
